Dimmension: ø30 - 60 x 17h cm
Finish: Natural

HIGH SINK

Colour: Black / Brown
Dimmension: 40 - 70 x 40h cm
Finish: Natural

PRODUCTION

The production of sinks and bathtubs from petrified wood requires a true intuition for sourcing this material because it is extracted from the ground – soil, not from mines, and a great deal of experience in manufacturing. Petrified wood must be carefully selected and cut, and only certain pieces are suitable for producing a stone bathtub or sink. Incorrectly chosen elements can cause the sink or bathtub to crack in half due to moisture absorption or even with a slight impact. Conversely, properly selected pieces of petrified wood can endure for millions of years, as they have until now. Additionally, the density of this stone means that a bathtub of the same size as, for example, a river stone bathtub, is even heavier by up to 20%.

PEDESTAL SINK „FRIGIDUS”

Colour: Black / Brown
Dimmension: ø50 - 70 x 90h cm
Finish: Natural

BATHTUB „LIGNUM”

Colour: Black / Brown
Dimmension: 80 - 120 x 180 - 220 x 60h cm
Finish: Natural / Polished

FOSSIL STONE BATHTUB „LIGNUM”

FOSSIL STONE BATHTUB „LIGNUM"

Probably the rarest stone bathtub in the world.

The creation process takes millions of years.

Petrified Wood soaking bathtub is made of Fossil Wood. Its phenomenal design comes purely from nature or, to be precise, million-years old trees that were turned to stone in volcanic ashes of Indonesia. Made of **only one piece** of stone always. No glue, paint or artificial adhesive are used. Every Freestanding Fossil tub is cut and manually drained by our best craftsmen in Indonesia. The outside remains unchanged, just as it was created by mother nature, while the inside is meticulously polished. We take the stone directly from the source, which is a guarantee that the client gets the best bathtub available in Indonesia!

Each stone soaking bath support the drain hole standards of a destined region (European, American, Asian, etc). These river stone bathtubs are exported virtually to any place in the world. Flumen stone bathtub is part of Natural River Stone Collection, which is the most successful and best seller in Europe and America. Natural river stone products, like soaking bathtub, sinks, shower treys are unique and luxurious choices of architects and designers. There are no two exact same products of natural fossil wood stone bathtubs.

OVAL COUNTERTOP

Colour: Black / Brown
Dimmension: 50 - 110 cm
Finish: Polished

LONG COUNTERTOP

Colour: Black / Brown
Dimmension: 50 - 110 x 80 - 180 cm
Finish: Polished

COFFEE TABLE

Colour: Black / Brown
Dimmension: 30-50 x 30-50h cm
