Stone Bathtubs

Natural stone products. Created by nature,
perfected by Lux4home™

Our Bathtubs

All our stone bathtubs are handcrafted in Indonesia. For more than two decades, our focus has been solely on utilizing natural materials such as marble, river stones, onyx, petrified wood, and andesite in crafting our exquisite range of bath tub. Each stone bath tub is crafted from a single piece of rock (we do not combine stones or glue elements). While our catalog showcases standard sizes, we can customize any freestanding stone bath tub according to the client's specifications. Lux4home™ Indonesia sells bathtubs in bulk quantities to B2B clients and individually to retail customers, interior architects, hotels, spas, etc. Our exceptional stone bathtubs have been delivered to various locations worldwide, including Australia, New Zealand, the USA, Canada, Poland, the UK, Oman, Russia, South Africa, Norway, Denmark, Spain, and Italy. They are already present in 31+ countries. Explore our natural stone baths for sale
